

# STRUCTURED SAFETY PROCESS

**THE SRI GROUP, INC.**

Official Structured Safety Process (SSP) Brochure - 2024

# IMMEDIATE HSE **IMPROVEMENT**

For over 40 years, the Structured Safety Process (SSP) has been instrumental in helping SRI clients minimize accidents and injuries. It stands out as an innovative, lean, and fully customizable safety management system, suitable for any workplace environment.

SRI tailors the SSP for each Client's unique organization. The SSP provides immediate return on investment, while securing a roadmap for enduring HSE process success.

SRI incorporates behavioral safety and human error tools to create a continuous improvement process that helps each client achieve and maintain superior safety performance.

**Eliminates Incident & Error**  
**Instills Accountability**  
**Reduces Cost**

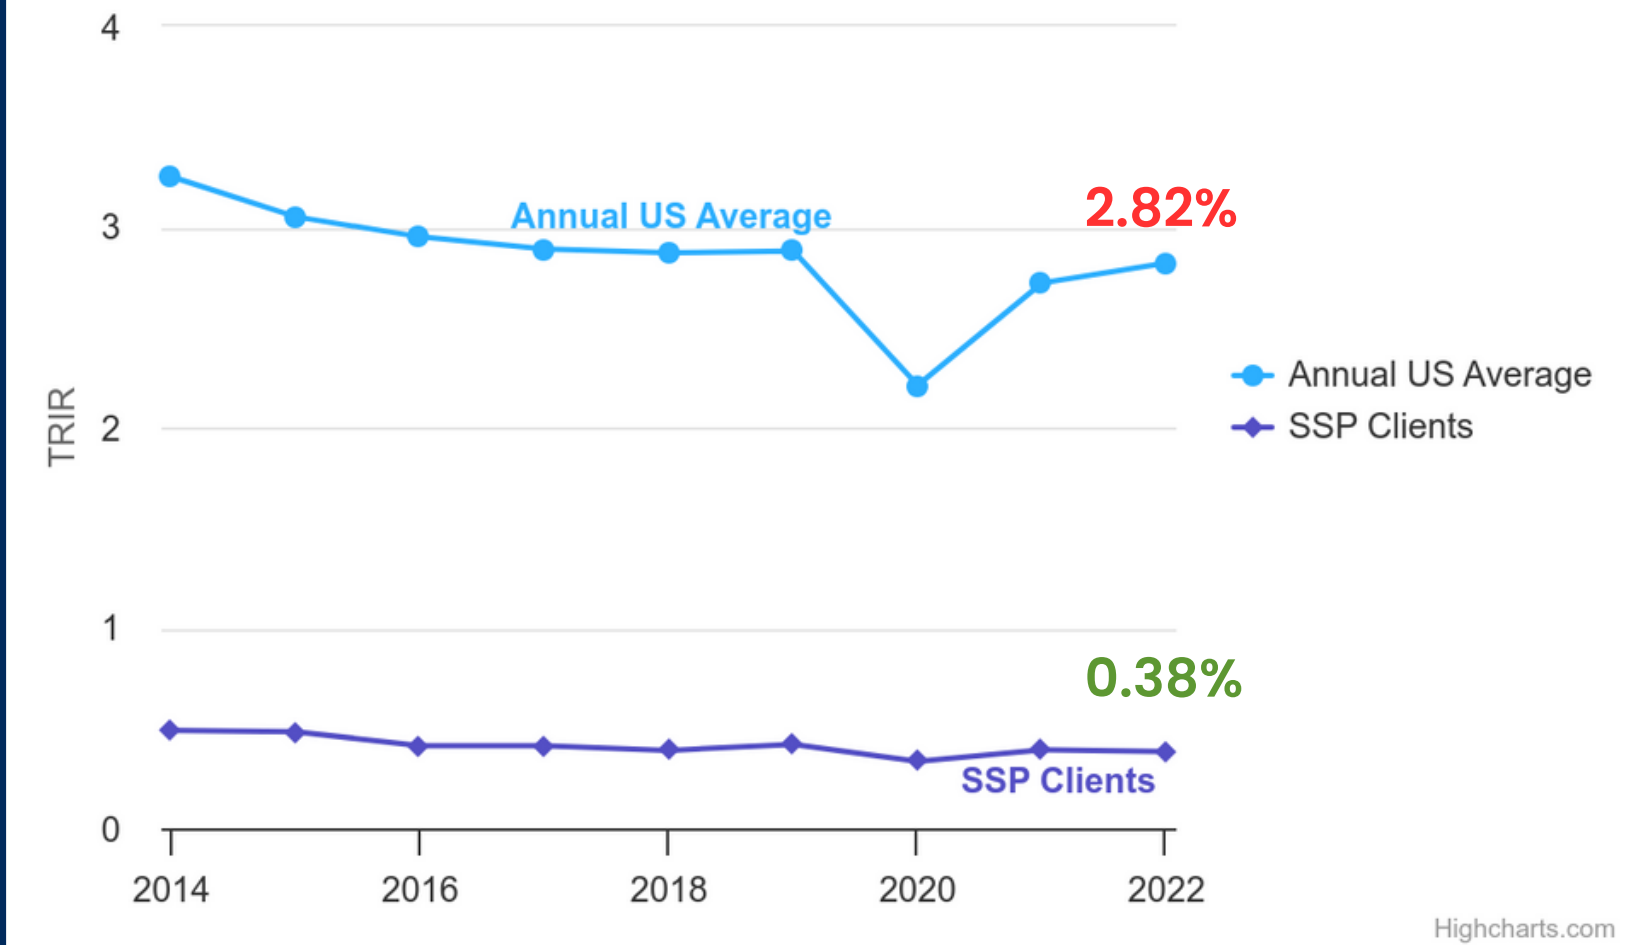

# THE SSP GETS RESULTS

In 2022 all SRI clients combined to achieve a 0.38% OSHA Recordable Rate. The National average was 2.82%

## Total Recordable Incident Rates (TRIR)

SSP Clients (TRIR) vs Cross Industry Averages.

(source <https://www.bls.gov/iif/>)

# THE MOST EFFECTIVE PROCESS

99%

## Reduces Injuries

SSP clients achieve at least a 50% reduction in all recordable injuries within the first 12 months of implementation.

90%

## Lasting Results

The Structured Safety Process is still utilized by 90% of our clients who implemented the SSP over the past 40 years.

100%

## OSHA VPP Certified

SRI has helped a perfect 54 of 54 clients achieve the pinnacle of safety excellence.

## Cost Savings

SSP has saved our clients millions related to healthcare, insurance, legal fees, and downtime costs. It also helps to avoid the costs of repairing equipment and environmental remediation following an incident.

# TAILORED FOR YOU

## Fully Customized Structured Safety Process

The Structured Safety Process can be tailored to the unique needs of your company, industry and work environment. It can be deployed on a single site or on a corporate basis.

The SSP enhances and compliments your existing processes while infusing SSP elements, best-practices and tools. This ensures a unified approach across all business divisions, bridging any potential gaps.

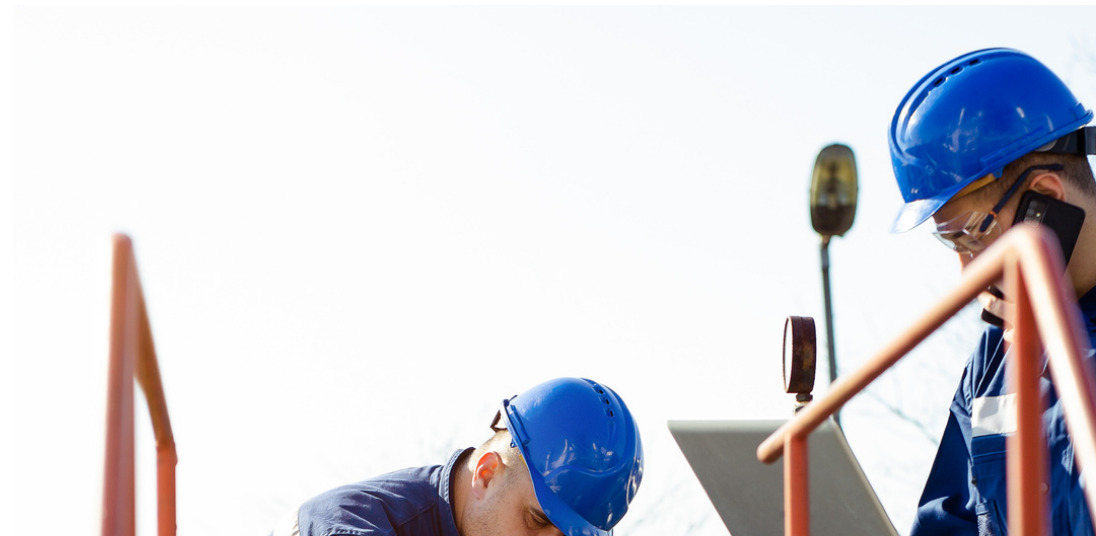

# PROVEN SAFETY IMPROVEMENT

## Track Record of Success

For over 40 years The Structured Safety Process has achieved unparalleled results for our clients. Successful applications of the SSP have been effectively implemented across 5 continents

With countless industry safety awards achieved, over 75k employees have been trained in the SSP.

## Infused Accountability

What separates the SSP from other Safety programs is our built in accountability methodology, TAP.

The Team Activity Plan (TAP) ensures participation and verifies compliance with frequency expectations. From Leadership to hourly, all person(s) are held accountable for completing monthly activities.

## Improves Culture

By implementing prevention activities and safety tools like Job Safety Analysis, Safety Observations, Inspections, Employee Observations, etc. the SSP helps ingrain a culture of safety.

These tools create a knowledge base and culture that help your organization systematically and proactively manage safety.

# IMPLEMENTING SSP

---

## 1 Initial Assessment

The Client's current HSE effort is compared to the SSP and other recognized industry best practices. This initial assessment is also used to familiarize SRI with the client's culture and other management systems.

## 2 SSP Customization

Our consultants will work with your subject matter experts and leadership teams to customize the Structured Safety Process to meld with your current systems in place.

## 3 SSP Training

All Client personnel are trained in the activities of SSP and in their specific responsibilities. SSP Training contains a number of Modules (Hazard Recognition, Safety Observations, Permit Audits, Inspections, Incident Investigation, JSAs, and more).

## 4 Implementation Assistance

SRI assists you in the development of implementation strategies to facilitate implementation of process activities. SRI remains attentive to the Client throughout phases of implementation. SRI provides the necessary resources and support to ensure that the SSP is working as intended.

## 5 Post Implementation

Ensuring the Client is on course with expectation, SRI conducts the 1 year post implementation assessment. The assessment is conducted to evaluate your organizations progress of the SSP and the stated goals.

## OUR VALUED CLIENTS

Our Diverse Client List ranges from Chemical, Petrochemical, Coal, Oil & Gas, Polymers, Aerospace, and beyond.

For over 40 years The SRI Group has had the opportunity to work alongside some of incredible clients throughout all industries. What makes SRI and The Structured Safety Process so great, is it's ability to adapt to any environment and industry.

# CLIENT TESTIMONIALS

---

## Doug Ward

HSE Specialist  
Air Products

---

“The logic and elements of the The SRI Group’s process (SSP) address the fundamentals of basic safety and human behaviors. SSP can be adapted to each new safety need, as well as structured with strong application and intent. Additionally, the sites have found that using the process (SSP) have not only lowered injuries and incidents, but have increased safety awareness.”

## Brian Lucas

HSEQ  
OCI Beaumont

---

“We are delighted to be one of the few sites that have been awarded Star Status during the initial assessment, yet we weren’t really all that surprised. We had great help. SRI was critical to our success; they developed the VPP Attainment Plan, facilitated completion of both VPP applications and used their experience to guide us through the attainment process. SRI’s professionalism, expertise and leadership were invaluable in obtaining Star Status.”

# OTHER SRI SERVICES

---

## OSHA VPP Certification Training

---

The SRI Group is the industry leader when it comes to certification. Every one of our clients who have applied for Star Status have achieved the award. A perfect 100% attainment.

## HSE Audits & Assessments

---

Our team of experienced safety professionals can conduct a thorough assessment of your facility, evaluating everything from processes, HSE activities, employee training, etc and provide valuable steps to improvement.

## Leadership & Supervisory Training

---

SRI's training programs are designed to empower leaders at all levels of an organization to create a culture of safety that is essential for preventing accidents and injuries.

# OUR CONTACT

---

## Keep In Touch

We understand that every organization's safety needs are unique, and we're here to listen, understand, and provide tailored solutions that align with your specific requirements.

Our team of experts is committed to guiding you through your safety journey, ensuring that every step you take is towards a safer, more secure future.
